The key differences between the iPhone 17 Pro Max and its more affordable siblings include:

- **Display Size:** The iPhone 17 Pro Max features a 6.7-inch display, while the iPhone 17 and 17 Plus offer slightly smaller screens (6.1 inches and 6.5 inches, respectively).
- **Camera System:** The Pro Max is equipped with the most advanced camera system, including telephoto lenses, a larger main sensor, and ProRAW and ProRes capabilities, which are not available on the standard models.
